

Homework DBeaver IDE for SQL Queries

Load Packages

```
library(DBI)
library(duckdb)
library(nycflights13)
```

Please go over the note “dbeaver_4_assignment-sql.html” to learn how to Download and install DBeaver Community at: <https://dbeaver.io/download/>

Use DBeaver for all of these exercises.

1. What is the mean temperature for flights from each airport?

```
[1] "airlines" "airports" "flights"  "planes"   "weather"
```

2. What is the average number of flights from each airport per day in January?
3. What are the top destinations for each airport?
